Waukesha, WI 53188

The Waukesha Rotary Club is celebrating its 100 Year Anniversary this year. In honor of this great event, we would like to update the signage on the Rotary building at Frame Park.

- We would like to leave the current sign (river side of the building) on display just as it is.
- In addition, we would like to add a 30” Single-Faced Rotary Sign. (Fully reflectorized "SCOTCHLITE" emblems in blue, gold, and white on full hard alloy aluminum. Pre-drilled for appropriate means of display. Meets or exceeds Federal road sign standards.)

- A 3rd small sign (Celebrating 100 Years, 1921 – 2021”) would be a dura-black aluminum plate.
- We would also request that WPRF do the installation. I believe they installed the current sign.
- We would expect the signs to last 10+ years and the Waukesha Rotary Club is willing to purchase a new sign when the current one becomes damaged or faded.

Let me know if you have any other questions. Thank you for your consideration and help with this.

Sincerely,

Colleen Kalscheuer
Club Administrator
