RE: Water Treatment Chemical Quotations

Quotations for water treatment chemicals were received at 2pm on Monday August 15th.

Supply chain issues and market volatility continue to prevent us from receiving firm pricing for longer than a three-month timeframe on most of our water treatment chemicals. Our current quote for sodium silicate holds until the end of November. Due to Well 10 operating at half capacity, we continue to have supply on hand for the dry chemicals needed for the HMO process at Wells No. 3 & 10. Quotes were requested for the other five chemicals we use, as those quotes expire at the end of August.

As you can see from the unit price bid tab attached to this memo prices have once again increased.

Based on estimated pumpage, the recommendations for chemical suppliers and pricing for the next three months (September 1 – November 30th) are listed below.

Fluoride (480 gallons)	Viking Chemical Company	\$1,680.00
Sodium Hypochlorite (8,250 gallons)	Hawkins Water Treatment	\$23,017.50
Sodium Hydroxide (624 gallons)	Hawkins Water Treatment	\$1,859.52
Liquid Sodium Permanganate (520 gallons)	Hawkins Water Treatment	\$8,013.20
Liquid Manganese Sulfate (520 gallons)	Viking Chemical Company	\$3,614.00

Quotations for future needs will be come before the Commission at their November 2022 meeting.

Recommended Motion: Move to approve purchase of water treatment chemicals from chosen vendors for the unit prices and timeframes, as presented.

Chemical Bid Summary
September 1 - November 30, 2022

Supplier	9/1/22 - 11/30/22	9/1/22 - 11/30/22	9/1/22 - 11/30/22	9/1/22 - 11/30/22	9/1/22 - 11/30/22
