Re: Plan Commission Application

South Side Pump Station Consolidation

Milky Way Pump Station 1601 Milky Way Rd

Dear Commission Members,

In order to provide reliable, efficient, and cost-effective sanitary sewer service to portions of the south side of Waukesha, the City of Waukesha will be adding minor upgrades to the existing Milky Way Rd sanitary sewage pump station.

A new backup generator will be added along with the necessary switches, controls, and other electrical items. This will allow the station to automatically switch over to generator power in a power outage without the need for Clean Water Plant staff to bring a portable generator to the site. Other minor changes will be made to the existing drive apron to direct storm water away from the station.

Sincerely,

Jonathan E. Schapekahm, P.E.

Project Engineer
