Subject:

Review and act on Contract Change Order #03 with Super Western, Inc. for E. Sunset Drive Roadway Improvements

Details:

During the course of the project, the contractor encountered contaminated soils below subgrade which required the excavation and hauling of the contaminated soils to a designated landfill. The contaminated soils were not previously known and were likely associated with an old abandoned roadbed that was filled over. At that time, the project had already endured several delays and, in the interest of time to finish the project prior to winter, the only option was to excavate the contaminated soils, stock pile and cover it. The City was not able to get a variance from the landfill which could only take 40 Tons of contaminated material per day. This required the contaminated soils to be stock piled on site, loaded and hauled. Due to the restricted tonnage, the effort took 25 days to complete.

The contractor provided extra services outside of the contract for extra trucking and double handling of this contaminated soil to the landfill. Extra work included stock piling, covering with plastic, uncovering, reloading and hauling to the designated landfill in Franklin, WI rather than the local project dump site near Tenny Avenue. Work to haul this soil took place from August 15, 2016 to September 19, 2016 and on October 14, and October 24, 2016.

Subtotal requested cost for dealing with the Contaminated Soils = \$28,502.59

Options & Alternatives:

This work was time sensitive and required stock piling on site, per the DNR, and limited hauling per day to a designated landfill. This was the only alternative due to the contamination of the soil.

Financial Remarks:

Contract Change Order #03 - Total Expense: \$28,502.59 Acc# 0410.2004.68290 for Road — \$28,502.59

Executive Recommendation:

Recommend approval of Contract Change Order #03 with Super Western, Inc. in the amount of \$28,502.59 for E. Sunset Drive Roadway Improvements.

CONTRACT CHANGE ORDER E. SUNSET DRIVE ROADWAY PROJECT

DATE: February 1, 2017

Contract Number: 3945

Branch: Engineering Department

Change Order Number: 3

Contractor: Super Western, Inc.

Amount of Contract prior this Change Order......\$1,947,921.07

Description of change:

The following change order covers extra work done by the contractor for the following:

Trucking Cost to Haul Contaminated Soils:

During the course of the project, the contractor encountered contaminated soils below subgrade which required the excavation and hauling of the contaminated soils to a designated landfill in Franklin WI. The contaminated soils were not previously known and were likely associated with an old abandoned roadbed that was filled over. The soils were of a nature that they needed to be removed and hauled to a designated landfill.

At the time the contaminated soils were discovered, the project had already endured several delays and, in the interest of time to finish the project prior to winter, the only option was to excavate the contaminated soils, stock pile and cover it. The City was not able to get a variance from the landfill which could only take 40 tons per day. This required the contaminate soils to be stock piled, loaded and hauled for 25 days.

The contractor is requesting compensation for the cost of trucking this contaminated soil to the landfill and all other extra work, stock pile, cover, uncover, reload and hauling. Work to haul this soil took place from August 15, 2016 to September 19, 2016 and on October 14, and October 24, 2016.

Subtotal requested cost for dealing with the Contaminated Soils = \$28,502.59
