

260 South St. Façade Plan March 2017

1. Based on comments from the Staff at City Hall, we came up with a preliminary plan for 3 retail spaces on the first floor of this building and re-designed the façade to accommodate this plan. Therefore, the previously proposed EIFS and windows have been changed to a storefront entry door and retail windows.
2. In this area, we eliminated the previously proposed garage door and replaced it with a 2nd storefront entry door and retail windows.
3. Again, we eliminated the previously proposed garage door and replaced it with a 3rd storefront entry door and retail windows.
