Options for Architect Series® Traditional Double-Hung Window*

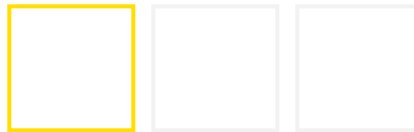

Materials

Architect Series products offers three exquisite wood types to enhance your home's design.

[Learn more about materials](#)

And, we stand behind them with a limited lifetime warranty. See [written Limited Warranty](#) for details, including exceptions and limitations.

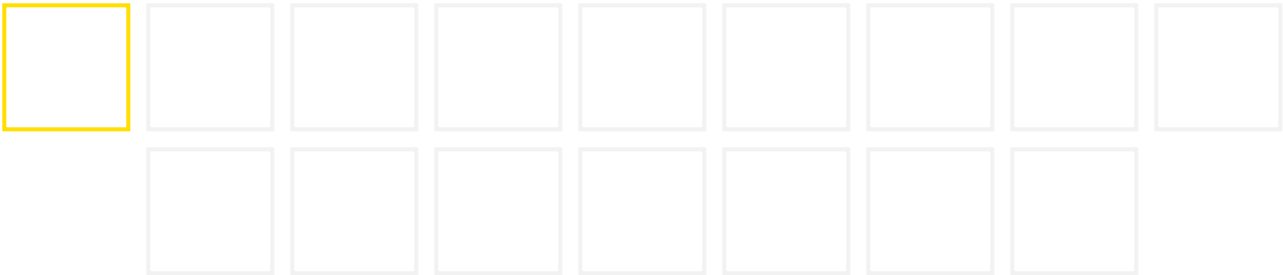

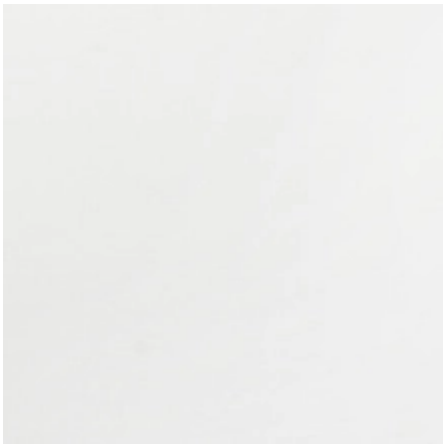

Douglas Fir

Interior Finishes

Pella wood products can arrive factory-prefinished in your choice of eleven beautiful stain colors or five paint colors. Primed, ready-to-paint interiors are also available. ² [Learn more about interior finishes](#)

Bright White

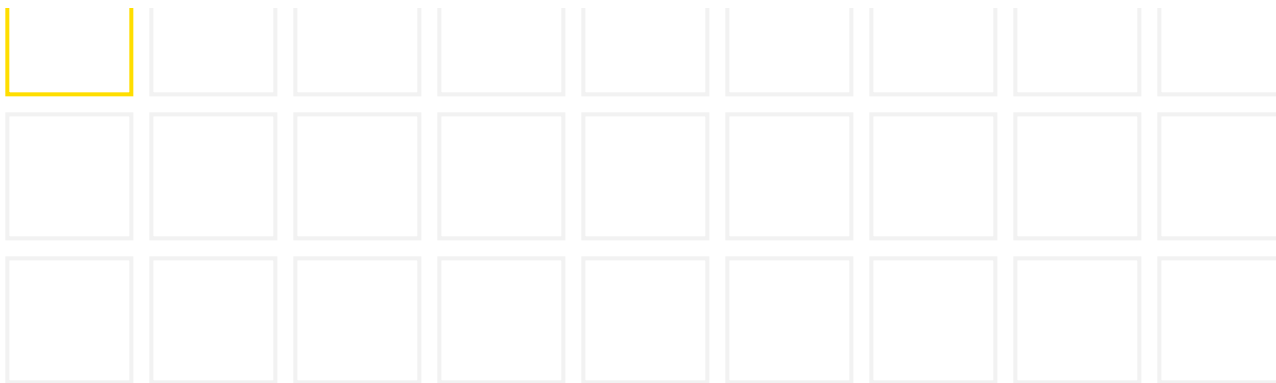

Exterior Finishes

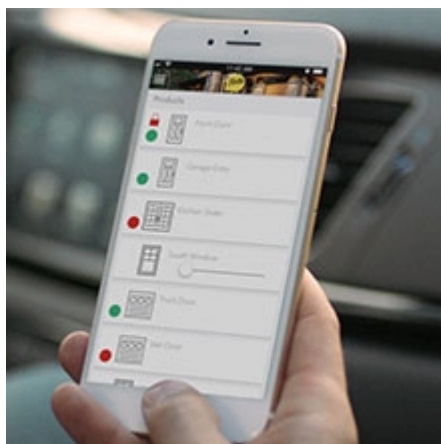

Low-maintenance exteriors. Your windows and patio doors arrive with Pella's low-maintenance EnduraClad or EnduraClad Plus exterior finish in the color of your choice. The finish resists fading and help protect the exterior for years. [Learn more about exterior finishes](#)

White

Integrated Security Sensors

Stay connected to your windows.

Preserve beauty, add comfort and enhance home security with innovative Pella Insynctive® technology.

Built-in beauty. Optional integrated sensors with time-tested wireless technology are built in and tucked away, out of sight, to preserve the beauty of Pella windows.

Protect what matters most. Monitor windows while at home or away with the Pella Insynctive App®.⁴⁰

Maintain warranty. Sensors are installed during manufacturing and require no additional drilling.

Grille Patterns

Grilles give the appearance of individual window panes. Pella offers many grille patterns to help enhance your home's architectural style.

Cross

Grille Profiles

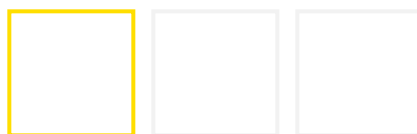

For the classic look of individual windowpanes, choose grilles-between-the-glass and Integral Light Technology Grilles. [Learn more about grilles](#)

7/8" ILT Grilles

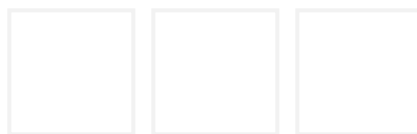

Integral Light Technology® Grilles

Pella's most authentic look of individual windowpanes. Square profile grilles are permanently bonded to the inside and outside of the glass with a nonglare spacer in between.

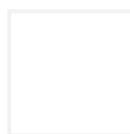

Removable Roomside Wood Grilles

Roomside grilles can be removed to make cleaning easier.

Grilles-Between-the-Glass

Grilles are permanently sealed between the panes of insulating glass.

Hardware

Pella's hardware styles are available in today's most popular finishes.

Screens⁴

Window screens play an important role in your home's light, ventilation, and view. Pella's high-transparency screens are made of a finer screen fabric than conventional screens, so they allow more air and natural light to flow into your home – and your view is crisp and clear. And unlike ordinary screens they're practically invisible from the street, so they improve your home's curb appeal. [Learn more about screens](#)

- Pella Vivid View® screens truly bring the outdoors in with 29% more light and are 21% more open for improved airflow compared to conventional fiberglass screens.⁵
- Pella InView™ screens let in 14% more light and are 8% more open for improved airflow compared to conventional fiberglass screens.⁵

Glass Options

Pella's InsulShield® glass collection offers our most innovative and energy-saving choices for your climate. [Learn more about glass options](#)

Why Pella:

Reputation - highly rated by Consumer Reports

Memorable Installation Aspects:

All aspects were excellent, especially the installation team. very efficient, focused, and professional.

By Joyce W. in Brookline, MA

02/16/2020

Why Pella:

Very professional

Memorable Installation Aspects:

The outside tint looks greenish. A lot of touch up around the window sills.

By Carolyn S. in German Valley, IL

02/09/2020

Why Pella:

I have had great luck with Pella products and you were able to make windows that matched the \historical\ old windows.

Memorable Installation Aspects:

Ted the sale rep was professional and likeable at the same time. Great product knowledge- super guy.
