Subject: Recommend permission for Everstream to access an existing pole easement on Meadowview Park to install Fiber Optic to existing We Energies pole.	

Details: Everstream is requesting permission to cross the Meadowview Park property with their equipment to install a Fiber Optic line on an existing We Energies pole, for which they have an existing easement with We Energies. This is a new requirement from We Energies that Everstream must get permission from the property owners to access the pole easements if they are not within the right-of-way.

Options & Alternatives:
These fiber optic lines need to be installed for City residents to have high speed internet access.

Financial Remarks:
The park land will be restored back to a condition at least as good or better than that prior to the pole access, in the event that any park land is rutted, damaged, etc.

Executive Action:
Recommend permission by Common Council for Everstream to access the We Energies pole in Meadowview Park.

Committee Recommendation:
The Parks, Recreation & Forestry Board recommends permission of the access to the Common Council.
