---

This item was brought forward by Ald. Browne. Concerned residents have indicated that vehicles parking on the east side of Paramount Drive just south of the driveway to 1705, have a hard time seeing northbound vehicles because of the parked cars. Staff has reviewed this item and determined that installing a No Parking Here to Driveway sign, located 40 feet south of the driveways edge would be beneficial and give up to 150 feet of additional vision to a driver going westbound out of the driveway. The total cost to install the sign for this parking zone would be around \$100.
