

Legislation Text

File #: ID#21-1683, **Version:** 4

This item was referred by Ald. Miller. In a previous Building and Grounds meeting on August 3, 2020, the committee approved the two-hour parking zone as it exists today. The parking zone is now requested to be changed back to 30-minute parking.

This item was withdrawn by Ald. Miller at the February 1, 2021, Building and Grounds committee meeting. Ald. Miller was going to talk with the owner of discount liquor about other options for parking in this area. Since that meeting, Ald. Miller indicated that, after discussions with the owner, no other viable options will work since deliveries are made through out the day.

Ald. Miller would like to address the committee on this topic and request to approve this item. The Department of Public Works does not have any issues with this item.
