Dear Charlie,

I hope you are doing well. In response to your inquiry on why the generator needs to be located where proposed rather than slightly further to the south on the property:

The location as indicated on Construction Drawings is where the landlord is requiring generator placement.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Paige Mitchell". The signature is stylized, with the first name "Paige" written in a cursive-like font and the last name "Mitchell" in a more straightforward, slightly cursive font.
