REMARKS: Conditional Certification of No Objection to this Final Plat is based on the following conditions being satisfied prior to the submittal of a revised a Final Plat:

1. Documentation must be presented to Waukesha County Planning and Zoning Division staff confirming that, as required by Section NR 110.08(4) of the Wisconsin Administrative Code, the Southeastern Wisconsin Regional Planning Commission has reviewed and commented on the proposed sanitary sewer extension which will be needed to serve this development.
2. A letter from the City or other formal documentation indicating that they are willing to extend sewer to the subdivision must be furnished to the Waukesha County Department of Parks and Land Use.
3. Pebble Creek extends onto the property. Therefore, Per Ch. 236 WI State Statutes, the following note shall be added to the face of the plat, “Any land below the ordinary high-water mark of a lake or a navigable stream is subject to the public trust in navigable waters that is established under article IX, section 1, of the state constitution.”
4. A copy of the wetland study prepared by RA Smith shall be submitted to the Waukesha County Planning and Zoning Division so that the county GIS natural resource layers can be maintained.
5. Add Professional Land Surveyor seal for James A. Trandel to face of plat.

In addition, we recommend the following:

6. According to the soil survey of Milwaukee and Waukesha Counties, lots in this subdivision contain soils that may be indicative of seasonal high groundwater conditions. Therefore, unless significant fill is proposed, we recommend that the City require a soil analysis for all lots within the development and ensure that basement floor elevations will be above seasonal high groundwater conditions. Waukesha County recommends that basements be placed at least one (1) ft. above the estimated seasonal high groundwater elevation. Minimum basement floor elevations should be identified on a Master Grading Plan or Final Plat for any lots with limiting factors.
7. The wetlands identified in the wetland study may be subject to federal regulations under the jurisdiction of the U.S. Army Corps of Engineers (USACE) and shall be submitted to the WDNR, and USACE for final jurisdictional review and concurrence.
8. Although all lots in the Subdivision have been reviewed and approved for development with single-family residential use in accordance with Section 236 Wisconsin Statutes, some lots contain soil conditions which, due to the possible presence of bedrock near the ground surface, may require additional soil engineering and foundation design with regard to basement construction. It is recommended that either a licensed professional engineer or other soils expert be consulted regarding the construction of basements in these areas where bedrock may be present near the ground surface. Soil conditions should be subject to each owner’s special investigation prior to construction and no specific representation is made

herein.

In addition, a note with language similar to the above language in this recommendation (#17), should be added to the final plat.

9. The Waukesha County Park and Open Space Plan identifies proposed bicycle accommodations along Madison Street. We recommend that the city determine whether bicycle accommodations are required either now or in the future.
10. If any private sewage system and/or private wells remain from the previous uses, they shall be properly abandoned and written documentation shall be submitted to Waukesha County Environmental Health or Planning and Zoning Divisions stating the system and/or well has been properly abandoned.
11. We recommend that the developer consult with the property owner of the location and function of any drain tile that may be present on the property and how it may impact the development.
12. The project is proposed on a parcel with a documented archeological site. The Office of the State Archaeologist, which maintains state records for archaeological sites, is being copied on this correspondence and we urge the developer to communicate with the State Archaeologist to ensure that site grading and construction is not delayed by archeological resource issues and that the plat layout does not conflict with said resources. The State Archaeologist, Amy Rosebrough, can be contacted at 608-264-6496, statearchaeologist@wisconsinhistory.org.

Wetland boundaries shown hereon were located by RA Smith (Erica Pergande WDNR Professionally Assured Wetland Delineator) on October 11, 2023 and provided to Trio Engineering, LLC in digital format.

BASEMENT RESTRICTION - GROUNDWATER NOTE:

Although all Lots in the Subdivision have been reviewed and approved for development with single-family residential use in accordance with Section 236 Wisconsin Statutes, some Lots contain soil conditions that, due to the possible presence of groundwater near the surface, may require additional soil engineering and foundation design with regard to basement construction. It is recommended that a licensed professional engineer design a basement and foundation that will be suitable to withstand the various problems associated with saturated soil conditions on basement walls or floors or that other special measures be taken. Soil conditions should be subject to each owner's special investigation prior to construction and no specific representation is made herein.

PRESERVATION RESTRICTIONS:

Those areas identified as WETLAND, SECONDARY ENVIRONMENTAL CORRIDOR and FLOODPLAIN on this Plat shall be subject to the following restrictions:

- Grading, filling and removal of topsoil or other earthen materials are prohibited, unless specifically authorized by the municipality in which this land is located and, if applicable, the Waukesha County Department of Parks and Land Use, the Wisconsin Department of Natural Resources and the Army Corps of Engineers.
- The removal or destruction of any vegetative cover, i.e., trees, shrubs, grasses, etc., is prohibited, except as may be used for a Recreational Trail and with the exception that dead, diseased, or dying vegetation may be removed, at the discretion of the landowner and with approval from the municipality in which this land is located and, if applicable, the Waukesha County Department of Parks and Land Use-Planning and Zoning Division. Silvicultural thinning, upon the recommendation of a forester or naturalist and with approval from the municipality in which this land is located and, if applicable, the Waukesha County Department of Parks and Land Use-Planning and Zoning Division shall also be permitted. The removal of any vegetative cover that is necessitated to provide access or service to an approved residence or accessory building, shall be permitted only when the access or service cannot be located outside of the Wetland/Floodplain/Secondary Environmental Corridor and with approval from the municipality in which this land is located and, if applicable, the Waukesha County Department of Parks and Land Use-Planning and Zoning Division.
- Grazing by domesticated animals, i.e., horses, cows, etc, is prohibited within the Wetland and Floodplain area.
- The introduction of plant material not indigenous to the existing environment is prohibited.
- Ponds may be permitted subject to the approval of the municipality in which they are located and, if applicable, the Waukesha County Department of Parks and Land Use, the Wisconsin Department of Natural Resources and the Army Corps of Engineers.
- The construction of buildings is prohibited.

WISCONSIN ELECTRIC POWER COMPANY and WISCONSIN GAS, LLC, Wisconsin corporations doing business as We Energies, Grantee and WISCONSIN BELL, INC. doing business as AT&T Wisconsin, a Wisconsin Corporation, Grantee and SPECTRUM MID-AMERICA, LLC, Grantee, AND

their respective successors and assigns, to construct, install, operate, repair, maintain and replace from time to time, facilities used in connection with overhead and underground transmission and distribution of electricity and electric energy, natural gas, telephone and cable TV facilities for such purposes as the same is now or may hereafter be used, all in, over, under, across, along and upon the property shown within those areas on the plat designated as "Utility Easement Areas" and the property designated on the plat for streets and alleys, whether public or private, together with the right to install service connections upon, across within and beneath the surface of each lot to serve improvements, thereon, or on adjacent lots; also the right to trim or cut down trees, brush and roots as may be reasonably required incident to the rights herein given, and the right to enter upon the subdivided property for all such purposes. The Grantees agree to restore or cause to have restored, the property, as nearly as is reasonably possible, to the condition existing prior to such entry by the Grantees or their agents. This restoration, however, does not apply to the initial installation of said underground and/or above ground electric facilities, natural gas facilities, or telephone and cable TV facilities or to any trees, brush or roots which may be removed at any time pursuant to the rights herein granted. Buildings shall not be placed over Grantees' facilities or in, upon or over the property within the lines marked "Utility Easement Areas" without the prior written consent of Grantees. After installation of any such facilities, the grade of the subdivided property shall not be altered by more than four inches without written consent of grantees.

The grant of easement shall be binding upon and inure to the benefit of the heirs, successors and assigns of all parties hereto.
