MEMORANDUM

DATE: Thursday, October 16, 2025

TO: Water Utility Commission

FROM: Mat Kadrich
Construction Manager

RE: 2026 Resurfacing Project: Survey and Water Main Replacement Plan

For the 2026 Resurfacing Project, the City has retained Cedar Corporation to perform the necessary survey work. This project encompasses the following streets: Pebble Valley, Harris, Hillside, Easy, Norton, Oaklawn, West End, and Pleasant View.

The Water Utility plans to replace the water main on all of the streets listed above. This work will be formally presented to you when the project bids next year, and is included as part of the 2026 Capital Budget.

The total cost for the survey work is \$51,064. The Water Utility's allocated portion of this cost is \$26,157.

Recommended Motion: Approve the Water Utility's part of the survey work for Cedar Corporation in the amount of \$26,157.00.
