City of Waukesha Cover Sheet

Committee: Plan Commission	Meeting Date: 12/17/2025
ID Number: PC25-0175	Ordinance/Resolution Number (if applicable):
Department Submitting: Community Development	Submission Date: 12/10/2025
Agenda Item Title: Final Site Plan & Architectural Review – 2417 Silvernail Road – Request to approve plans for a new commercial building with 76 residential units on the four floors above the commercial unit.	

Issue Before the Council: a proposed new commercial building at 2417 Silvernail Road to include 76 residential units on the upper floors. The proposal requires removing the existing small commercial building at 2417 Silvernail Rd and replacing it with a new 5-story building with commercial and indoor parking space on the first floor, residential on the upper floors and indoor parking on the two lower levels.

Options & Alternatives: The Plan Commission could recommend the approval of the application with or without conditions or deny it.
If the Commission does not approve the Site Plan and Architectural Review, the development will not be able to go forward.

Additional Details:
The 1.891-acre parcel slopes downward to the south towards a wetland. The plan takes advantage of the slope, locating access points into the lower levels of parking at the appropriate points in the grade. The 118-foot-wide lot is quite deep at 740 feet. The building is oriented north/south on the lot with the commercial space at the north end near Silvernail road. There are 56 one-bedroom units and 20 two-bedroom units proposed ranging in size from 740 to 1150 sq ft. Each unit has a recessed balcony, in unit laundry, and storage is provided in front of each parking space in the underground parking levels. 110 residential tenant spaces are provided in the garage along with 11 spaces for the commercial space, and there are an additional 6 surface spaces located in front of the building. A large inground detention chamber will be used for stormwater management at the south end of the

building. The bulk of the construction is happening over the former building and parking lot footprint.

Proposed architecture treatments include a mix of horizontal LP smartsiding, precast concrete with a natural rock brickwork pattern with smooth treatment between floor levels, and LP smartsiding trim for windows .
