10. Provide a brief description of your experience in managing a similar project.

The City has been running this program since the spring of 2013, after the property owners voted to disband the Business Improvement District who had previously managed it. The City has over a decade of experience with this program. In order to benefit more Low to Moderate Income Census Tracts, the City has recently expanded the boundaries of the program to include other areas outside of Downtown.

This program continues to be one of most important economic development tools we have to attract and retain businesses in our central city and low to moderate income areas.

- Two façade grants awarded: 2 (Martinez Law Office façade repair and 344 Broadway Avenue façade renovation/improvement
- Money leveraged through grant program: \$15,000 in 2024 grant money was leveraged into \$260,000.75 in

improvements to downtown commercial buildings.

11. Describe the role specific staff will have in this project. Who will be responsible for managing the project, reporting to Community Development, preparing invoices, etc.?

The Department of Community Development will be the project manager for this program. We will be the responsible for publicizing the program, working with the businesses on their proposals, reviewing grant applications, verification, and all reporting and invoicing with Waukesha County.

12. Provide a concise description of the proposed project.

Over the past several years, many of our downtown properties, as well as the major gateways to downtown, and the area in the vicinity of W. Sunset Drive and S. West Avenue have been neglected and have not received adequate maintenance. In addition, many original facades downtown were redone with unattractive storefronts that do not blend well with the historical architecture still in place. This has created an unwelcome environment when attracting new businesses in this area. In addition, these areas tend to be where small, independent, and locally owned businesses tend to locate. This helps those owners by providing matching funds for upgrading building facades, awnings, and storefront signage. The program is designed to be a matching grant program, so we are leveraging private dollars into upgrading the buildings to enhance these areas. Owners are investing their money to make improvements, along with matching funds from the program.

If the proposed project is a rehabilitation / ADA / historic rehabilitation of a facility or business, please answer the following:

13. Address of Facility: N/A

14. Year it was built N/A

17. Describe the need filled for your program or project.

Over the years, many Downtown, central city and Sunset Drive properties have been neglected and have not been properly maintained. In addition, in the mid-1900's, many of the original facades downtown were redone with unattractive storefronts that do not blend in cohesively into the historic downtown. Many businesses that are located downtown, tend to be small, independent businesses with limited resources and funds. Typically, the interior renovations and upgrades take priority when a new business moves in. This program provides funds to assist business owners so they can make improvements to the façade, awnings and signage.

18. Describe two anticipated measurable outcomes for your proposed project and activities.

The two measurable outcomes are:

1. The number of businesses and buildings that are rehabilitated with the funding. This includes the e façade, awnings or any signs that are installed.
2. Amount of total improvements leveraged by the grant funds. For example a \$10,000 grant could leverage \$20,000 in actual improvements.
